

Project saraswati

Open Sharing of Knowledge & Feeling
gain knowledge, know your heart and
be inspired to do what is to be done

Technology

A power in today's times.
Concepts and soft tools to
know for practical use.

What excites me as a
techno-preneur?
How about you?

Thu 22nd; 4PM; CS101.

Making a living while being free

My experiences and learning.

Even your mom can start-up.

Starting up and its nitty gritty's ...

Doing a job is also okay!

Here and now: Starting
up in the campus .

Fri 23rd; 2-5pm; CS101.

University of life:

Getting the most out of it

Who am I?

Making the choice:

The blue pill or the red pill?

Choices I made and
what have I learned .

Making the most
out of IIT Kanpur .

Fri 23rd; 9pm; CSE Lounge.

Ayush, alumni of IITKanpur is a **techno-preneur and follower of his heart**. As a student he was generally out standing, unless attendance would be compulsory. Bitten by the CAT virus in third year, he recovered soon and decided to stick to tech to do justice to his degree. For 42 months he enjoyed his jobs in Oracle and iXiGo before jumping on to the **entrepreneurial bird of freedom**. Mindgrep Technologies was hence born in early 2010. Metataste, Mindgrep's brainchild, recommends movies based on your taste. Since starting on Metataste, Ayush's life itself became a Hollywood drama. Adding another twist to the drama, he shifted with Mindgrep from the **dusty Gurgaon to the magical Himalayas of Dharamsala**. A **Ghoomakad for life**, today he is at the cross roads once again, and has chosen his next move. **Choices are what make all the difference**.
